**To:** House Innovation, Internet and Technology Committee  
**Subject:** House Bill No. 6151 - Opposition

**I, Emil E. Fachon, oppose H 6151. While intentions may be good, the bill should not advance for one clear reason:**

"4) For purposes of this chapter, public safety shall not include requirements relating to radio frequency emissions of wireless facilities."

Radio frequency emissions are of central concern to public safety! Please set this bill aside and advance a bill which puts regulating radio frequency emissions front and center....

Yours,  
Emil Fachon
