Subject: house judiciary meeting tomorrow

Hello representative:

I am against house bill 7051 ranges are not the problem. this will do nothing to prevent anything but legal activities, in addition during the pandemic schools were close while gun ranges which are essential for firearms safety operated. The general assembly should be ashamed of what happened to these kids during the pandemic, most were behind this was shameful. Closing schools to coddle the teachers union.

Bills 7302 I am against the device must be clearly labeled what law enforcement agency owns this the the warrant must be identified on the device otherwise someone finding this might remove and discard this thinking it was a disgruntled ex boyfriend girlfriend wife or husband.

Against 7303 to easy for school personnel to abuse this, needs to be severe penalties for lying about a false threat. must be a felony to falsely claim a student threatened school staff before this should be law.

Against 7368 too easy for someone to drive by and make noise and someone else get blamed.

against 7568 this is just an excuse to fine someone who is operating a vehicle safely.

against 7570 unless it allows all citizens the same right this is no a movie these don't make it so the gun makes no sound, just so you don't need hearing protection, and regulated at federal level including a tax to purchase.

Against 7578 your home address need to be on your license period. same for everybody.
