I have lived on Plainfield Street, Providence, Rhode Island for few a years and the car noise from drivers and parked cars are getting to be very annoying specially at the Three Ring Liquor Store and at Opendoorsri located on Plainfield Street. Drivers driving on the street with their car speakers way loud from City ordinance. Out peaceful lives is no longer able to enjoy anyone, we have called the Police and they don't respond and when they do they are long gone. The neighbor buildings continue with their noise. Would be nice to get some resolution to this issue.
