RI House District 53

March 11, 2024

Dear members RI House Judiciary Committee:

I am contacting you to voice my opposition of House Bill 2024-H7373. This bill creates arbitrary cases when, where, and how a firearm shall be stored. It also creates an environment where guns are considered taboo instead of an environment where adults and minors are taught guns should be respected and how to be properly handled. NRA has a school program Eddie Eagle that teaches such concepts to students, but that type of instruction is not allowed in schools.

Respectfully submitted,

Joseph R Graf
