Subject: Please pass H. 7454/S. 2302

Dear Legislator,

As a constituent, I am writing to urge you to pass H. 7454/S. 2302, which will phase out the sale of new fur products in Rhode Island.

Over 100 million animals are killed annually for their fur, with more than 90% being killed on large-scale fur farms. On these farms wild animals are forced to live in cramped, wire-bottom cages, deprived of the ability to engage in natural behaviors and are killed in inhumane ways, such as electrocution or gassing. The fur industry is also harmful to the environment and a serious source of infectious diseases.

Ending the sale of fur products in Rhode Island will help ensure that the state is doing its part to put an end to the cruel fur industry. By passing H. 7454/S. 2303, we can save countless animals by ending the supply and demand for new fur products in Rhode Island.

For the love of animals please sign. Thank you for your consideration.

Once upon a time, there was a reason for fur trade- primarily warmth and shelter. Over the years, wealth was evident through people show casing furs on their body. We have many more textiles and options to provide warmth today. Why would we continue cruel measures forced upon innocent, living things when there are other options? There is so much violence in the world already, why continue to allow more of this when we can control it?

Do you have a family pet? Can you imagine putting them in a cage, being electrocuted and watching them suffer just so someone could strip them of their fur and toss their bodies aside JUST so someone could show off?

It is that simple.

No living creature deserves inhumane torture for any reason. There should always be a humane way for certain resources - meat included.

Please, support ANY legislation that stops cruelty to all animals.

I've written previously about this issue. Not only would the passage of H. 7454/S. 2303 be a tremendous win for these animals that don't deserve such cruelty, but it also shows that Rhode Island is in touch with the public's view that these fur products are unnecessary and unwanted. There are plenty of alternatives that are not inhumane.

Thank you for your consideration.

On these farms wild animals are forced to live in cramped, wire-bottom cages, deprived of the ability to engage in natural behaviors and are killed in inhumane ways, such as electrocution or gassing. The fur industry is also harmful to the environment and a serious source of infectious diseases.

Ending the sale of fur products in Rhode Island will help ensure that the state is doing its part to put an end to the cruel fur industry. By passing H. 7454/S. 2303, we can save countless animals by ending the supply and demand for new fur products in Rhode Island.

Thank you please stop this cruelty for your consideration.

Subject: Please pass H. 7454/S. 2302

Dear Legislator,

As a constituent, I am writing to urge you to pass H. 7454/S. 2302, which will phase out the sale of new fur products in Rhode Island.

Over 100 million animals are killed annually for their fur, with more than 90% being killed on large-scale fur farms. On these farms wild animals are forced to live in cramped, wire-bottom cages, deprived of the ability to engage in natural behaviors and are killed in inhumane ways, such as electrocution or gassing. The fur industry is also harmful to the environment and a serious source of infectious diseases.

Ending the sale of fur products in Rhode Island will help ensure that the state is doing its part to put an end to the cruel fur industry. By passing H. 7454/S. 2303, we can save countless animals by ending the supply and demand for new fur products in Rhode Island.

Thank you for your consideration.

Subject: Please pass H. 7454/S. 2302

Dear Legislator,

As a constituent, I am writing to urge you to pass H. 7454/S. 2302, which will phase out the sale of new fur products in Rhode Island.

Over 100 million animals are killed annually for their fur, with more than 90% being killed on large-scale fur farms. On these farms wild animals are forced to live in cramped, wire-bottom cages, deprived of the ability to engage in natural behaviors and are killed in inhumane ways, such as electrocution or gassing. The fur industry is also harmful to the environment and a serious source of infectious diseases.

Ending the sale of fur products in Rhode Island will help ensure that the state is doing its part to put an end to the cruel fur industry. By passing H. 7454/S. 2303, we can save countless animals by ending the supply and demand for new fur products in Rhode Island.

Thank you for your consideration.

Subject: Please pass H. 7454/S. 2302

Dear Legislator,

As a constituent, I am writing to urge you to pass H. 7454/S. 2302, which will phase out the sale of new fur products in Rhode Island.

Over 100 million animals are killed annually for their fur, with more than 90% being killed on large-scale fur farms. On these farms wild animals are forced to live in cramped, wire-bottom cages, deprived of the ability to engage in natural behaviors and are killed in inhumane ways, such as electrocution or gassing. The fur industry is also harmful to the environment and a serious source of infectious diseases.

Ending the sale of fur products in Rhode Island will help ensure that the state is doing its part to put an end to the cruel fur industry. By passing H. 7454/S. 2303, we can save countless animals by ending the supply and demand for new fur products in Rhode Island.

Thank you for your consideration.

As a constituent, I am writing to urge you to pass H. 7454/S. 2302, which will phase out the sale of new fur products in Rhode Island.

Over 100 million animals are killed annually for their fur, with more than 90% being killed on large-scale fur farms. On these farms wild animals are forced to live in cramped, wire-bottom cages, deprived of the ability to engage in natural behaviors and are killed in inhumane ways, such as electrocution or gassing. The fur industry is also harmful to the environment and a serious source of infectious diseases.

Ending the sale of fur products in Rhode Island will help ensure that the state is doing its part to put an end to the cruel fur industry. By passing H. 7454/S. 2303, we can save countless animals by ending the supply and demand for new fur products in Rhode Island.

Thank you for your consideration.
