

Dear honorable members of the committee

My name is Tracey Miller and I'm Johnston RI my name is Tracy and I wanted to mention my story about the landlords I was renting a condo in Johnston for a year and a half he was selling the condo my landlord I had to be out in 60 days he knew my daughter and I which my daughter has cerebral palsy had nowhere to go that was back in July I am still homeless he never sold the condo he actually rented it for tenants that were willing to pay more then I applied for three units at 64 mill St. gave \$1000 deposit and then was told they don't accept my daughter's service dog my credit was no good and I do not make three to four times the money so basically landlords know they cannot ask for first months last month and deposit so now they're asking for three to four times the rent which is pretty much the same thing but reversing it into different way of putting it there needs to be a change and there needs to be more help for people and families like myself i hope this finds you well and i hope this helps to push forward with this homeless crisis thank you so much for your time.

Pls pass H 5503
