I strongly support H 5436. The NRA has controlled the narrative of gun control attempts for far too long. When is the number of mass shootings enough? Do we really need to live through another scenario where large group of innocent people lose their lives due to the use of high caliber assault weapons? It's only a matter of time before our community experiences such tragedy. The NRA group will proclaim their 2nd amendment rights will be infringed. If they truly feel that way maybe they should be using a musket as was the primary weapon at the time this amendment was ratified. We are a safer community with less guns, not more. Contrary to the beliefs of the NRA people.

Sincerely,
Frederick Hunt
