Please know that the right to bear arms in our country is what our founding fathers believed so deeply because they lived through times probably not very different from today. If you take away our rights and our guns and our voices the country will no longer be what they envisioned. I am speechless that illegal aliens have been voting, using our Medicare and all funds meant for US. It is your job as our elected officials to protect our rights. Please do your job and keep our country free and our citizens armed. I personally don't own a gun but believe in our Constitutional Rights.
