I would like for inmates to continue to have the privilege to get free calls, video visits & phones on the tablets. I feel as though with the free calls & video visits those who are indigent will be able to speak to their families especially their kids. For those who aren't indigent times usually get tough and they are not always able to get money on the phone or have money for video calls. Families may be having tough times paying their bills on the outside world and may not be able to provide the following.

The phone calls on the tablets will reduce arguments & fights. Most fights happen from phones because inmates aren't able to get on the phone, or there may be disagreements. If you check the fighting history in the ACI you can see that's how most fights happen. Most importantly all other prisons have phones on the tablets so it's only right we get it.
