Dear Honorable Speaker, Chairperson Euer, and Chairperson Craven,

My name is Kent Prokopy, I'm writing to express my support for the pending Second Look Act, which provides incarcerated people the chance to petition for a reduction of their sentence based on demonstrated rehabilitation. I would grant jurisdiction to the Superior Court to address a Motion like this under § 8-2-13.

Right now I'm 61 years old and my health is not so great, I also have an artificial heart valve. If I were able to get a second chance it would literally give me a new chance at life. Sure I have made mistakes in my life but at my age I have learned many lessons and done a lot of self-reflection.

This Second Look Act would allow me to spend the rest of my remaining years with the people who matter most to me. The new outlook I have on life through my incarceration, and my age has allowed me to really appreciate life and its simpler things.

It's my sincere hope that you will support this bill, bring it to a vote and help guys like me to have the chance to alter our sentence and earn our freedom.

Thank you so much for your time and consideration.

Sincerely,
