Dear members of the House Judiciary Committee,

I am writing in support of House Bill 5663. This is common sense legislation that should not even be required in statute. We are talking about people who have violated the laws of our country. Undocumented aliens who are caught into the criminal justice system should be deported and all necessary steps to assist federal authorities in that endeavor should be made to protect our citizens from exposure to more crime. Documented foreigners as well agree to abide by our laws when given permission to come to this country on a temporary status. Violation of our laws could cause that permission to be revoked, and the person deported. Any Federal Agency who lodges an immigration detainer should have that detainer honored by any authority who has custody of someone who has violated our laws. I am in strong support of this legislation.
