Hi,

My name is Christian Harland. I'm writing this testimony in support of passing House Bill No. 5724, and prohibiting contracts to detain individuals for civil immigration violations.

No one should have to live in fear of being imprisoned for being in the wrong place, and the federal government is using so-called illegal immigration as an excuse to violate civil rights across the country. We must ban any contracts supporting this horrific system.

Thank you,
Christian Harland
