Dear House Judiciary Members,

I am writing in support of HB7354.

As an avid motorcyclist with approximately 150K miles of experience, I understand how lane filtering works for the good of all motorists if executed properly and with care. Many auto and truck drivers do not understand the benefits.

Therefore I believe that if this bill is passed there needs to be significant public education with the use of PSAs on television, billboards, and printed matter. This would help inform all drivers that what they are experiencing is legal and encouraged. It has been proven that lane filtering by motorcycles actually decreases wait time for vehicle traffic and is relatively safe for everyone involved:

Thank you for your attention to this important matter before the legislature.

Best regards,
Joe Tatulli
