Dear Honorable Members of the House Judiciary Committee,

I write in strong support of H 7077.

The goals and tactics of ICE and CBP have made a mockery of our rule of law, and our sense of safety and American ideals.

Militarized forces have invaded all of our spaces including court houses, where people who are only following the rules are grabbed.

Masked, heavily armed agents are terrorizing communities in the name of safety. They profess that they are enforcing the law, but at what cost does this occur? What right does this give agents to break every law in pursuit of arbitrary quotas, even if this compromises our sense of living in a free, fair, and safe Country?

In Warren RI, we saw this first hand, where four agents in cars with very dark illegal tint on the windows (a major safety hazard in itself) waited all day to grab a Blount worker, only to leave his car running and blocking the street, forcing the Warren police to deal with the obvious hazard to public safety.

Why is ICE above the law?

Thank you for reading,

Sincerely,
