Re: Support for House Bill 7357, AN ACT RELATING TO HEALTH AND SAFETY -- REPRODUCTIVE HEALTH AND GENDER-AFFIRMING HEALTHCARE DATA PRIVACY ACT

Dear Members of the House Committee on Judiciary,

I write to express the strong support of the RI Coalition for Reproductive Freedom (RICRF) for House Bill 7357. Our Coalition, made up of 29 member organizations, works together to share resources, build strategies and coordinate efforts to connect reproductive freedom with social and economic justice. We recognize real inequalities in our state and we envision a RI where everyone has access to affordable and comprehensive reproductive health care.

The Dobbs decision had the immediate effect of limiting many people's access to full reproductive healthcare; in RI, thankfully, we had adequate protections, and we thank many of you for your hard work to make that happen. Data privacy about reproductive and gender-affirming healthcare, however, is of concern to Rhode Islanders, and we do not have adequate protection currently. This bill would address concerns about data that falls outside of HIPAA protections. On the national stage, data has been increasingly weaponized against patients, their loved ones, and our health care providers. We believe that privacy is non-negotiable, and is an essential component of exercising bodily autonomy and reproductive freedom.

Now more than ever, as states around the nation restrict reproductive freedom and gender-affirming healthcare, Rhode Island must be a beacon of hope and stand up for access for all Rhode Islanders. This bill helps achieve that.

Thank you for your consideration,

Nicole Jellinek, Chair, Rhode Island Coalition for Reproductive Freedom
