While reproductive and gender affirming care are permitted and generally accessible in Rhode Island, harassment is something that cannot be overlooked. We need to close the critical gaps in protecting healthcare data. Our concern is privacy and safety. For this reason, I am strongly writing in support of H7357 - known as the "Data Privacy Act," which would add the necessary protections. Thank you for your consideration.

Sincerely,

Rev Scott Spencer; Board member of the RI State Council of Churches
