Subject: OPPOSE H7766 Unlimited Eviction Sealing

Follow Up Flag: Follow up
Flag Status: Completed

Dear Committee Clerk DiMezza,

I am writing to express my opposition to the proposed legislation that would eliminate the five-year waiting period and remove the limit on motions to seal eviction court records.

This bill would undermine transparency and accountability in the rental process. Eliminating the waiting period could allow recent, unresolved eviction cases to be hidden immediately, making it harder for housing providers to assess tenant risk. Lifting the cap on sealing motions opens the door to repeated filings, increasing court burdens and weakening the reliability of public records.

This isn't about denying second chances, it's about maintaining a fair and balanced process for all parties. I urge lawmakers to reject this bill and pursue more balanced reforms that protect both tenants and housing providers.

Sincerely,

Daniel Abram
