Dear House Judiciary Committee,

I am a resident of Ward 3 in Providence, and I am writing in support of 26-H 8077, which would create reasonable safeguards around the installation and use of automated license plate reader cameras in Rhode Island.

While I understand that ALPR technology can be helpful in situations such as the recent shooting on Brown's campus, there is a deep need for regulation of these systems. As the data sharing capabilities are virtually unregulated entirely in our state, I hope the safeguards this bill would help create a system where our residents can live without discomfort of being over surveilled while allowing the good that the ALPR can do to continue.

Thank you for your consideration,

Paige Green
