Testimony in SUPPORT of 26-H 8077

Dear House Judiciary Committee,

I am writing in support of 26-H 8077, which would create reasonable safeguards around the installation and use of automated license plate reader cameras in Rhode Island.

I am deeply concerned that this technology is being used across our state without regulation and urge you to take action to protect our privacy in our state. The data sharing capabilities of these cameras is truly troubling, and I believe we need legal constraints in place.

Thank you for your consideration.
