

Dear Chairperson McEntree, Vice-Chair Knight and members of the House Judiciary Committee,

Jaime Vistel Hinojosa
Resident of Providence, R.I. 02907
In support of H7281

I'm in support of H7281 because I am clean and I want to be productive for society. I want to leave the past behind me as soon as possible. Also I want to be the example of other individuals to understand that everything positive, is possible to move forward in life.

I urge you to pass H7281.
