Dear Members of the House Judiciary Committee,

I am writing to urge you to oppose House Bill H8071, which would require a background check for every ammunition purchase in Rhode Island, including reloading components such as primers, powder, and bullets.

This bill treats law-abiding gun owners as suspects every time they buy ammunition. It creates a costly, time-consuming bureaucratic hurdle for routine purchases with no evidence it will reduce crime. Criminals who are already prohibited from possessing firearms will simply acquire ammunition through other means.

I urge you to vote against HH8071.

Dear Members of the House Judiciary Committee,

I am writing to urge you to oppose House Bill H8071, which would require a background check for every ammunition purchase in Rhode Island, including reloading components such as primers, powder, and bullets.

This bill treats law-abiding gun owners as suspects every time they buy ammunition. It creates a costly, time-consuming bureaucratic hurdle for routine purchases with no evidence it will reduce crime. Criminals who are already prohibited from possessing firearms will simply acquire ammunition through other means.

I urge you to vote against HH8071.

Respectfully,

Respectfully,

Dear Members of the House Judiciary Committee,

I am writing to urge you to oppose House Bill H8071, which would require a background check for every ammunition purchase in Rhode Island, including reloading components such as primers, powder, and bullets.

People who regularly engage in shooting sports or self-defense training go through a lot of ammunition. The NICS system may not even be able to handle the number of background checks this will cause. Additionally, this will act as a tax on Rhode Islanders' fundamental rights as any new process a gun store needs to go through to make a sale will translate to additional cost for the consumer.

This bill treats law-abiding gun owners as suspects every time they buy ammunition. It creates a costly, time-consuming bureaucratic hurdle for routine purchases with no evidence it will reduce crime. Criminals who are already prohibited from possessing firearms will simply acquire ammunition through other means.
