Dear Members of the Judiciary Committee,

I strongly urge you to oppose House Bill H8073 and defend the rights of law-abiding Rhode Islanders.

This legislation would force Rhode Islanders to surrender justly acquired private property under threat of criminal penalties. That is an unacceptable infringement on fundamental rights.

Reject H8073.

My wife and I are democratic seniors who are law abiding citizens with a newly found hobby. Everyone whom I have spoken with about firearms knows about safety and the rules. The shooting range that I attend with my wife are very determined that people know the rules and enforce it during range time. Taking away the rights of the people to own semiautomatic pistols and rifles doesn't stop the criminals. They are criminals! They don't follow the law. They WILL get them if they really want them. Where does that leave us? Unarmed in this day and age. I never owned a gun in my life until October. It is now for home safety, safely locked away until I need it.

We just purchased a rifle. God forbid we ever need it but my 2A right allows me to have it. If you can 100% guarantee me that I will be safe without it or that my family and friends will be 100% safe, I will give it up.

Until then and when the country is in a better place, I beg you to reject this bill.

Dear Members of the House Judiciary Committee,

I am writing to urge you to oppose House Bill H8071, which would require a background check for every ammunition purchase in Rhode Island, including reloading components such as primers, powder, and bullets.

This bill treats law-abiding gun owners as suspects every time they buy ammunition. It creates a costly, time-consuming bureaucratic hurdle for routine purchases with no evidence it will reduce crime. Criminals who are already prohibited from possessing firearms will simply acquire ammunition through other means.

I urge you to vote against HH8071.
