I have done nothing to reject any of my god-given rights, I have protected and served, I will continue to do so regardless of your decision. If you like your job, then your answer will be the same as the next do you like my rights? Before you attempt to deny my rights, look at the actual issues, the actual demographics, your statistics from location, housing, repeat offenses, and ideology together and focus on those. My firearms which have never been used to harm another are not the issue.

This is an infringement on our 2nd amendment rights, which have already been attacked enough. Enough is enough, this will not lower gun violence. It will only take the guns away from legal law abiding citizens. Criminals will always find a way to break the law. Please reconsider this.

Dear Members of the Judiciary Committee,

I DEMAND you to oppose House Bill H8073 and defend the rights of law-abiding Rhode Islanders.

This legislation would force Rhode Islanders to surrender justly acquired private property under threat of criminal penalties. That is an unacceptable infringement on fundamental rights.

There are far more crucial issues for the legislature to take up their time with that affect many more constituents.

I will follow these bills before the committee along with your voting record and consider these factors for your re-election, fund raising and possible promotions.

Reject H8073.

Respectfully,

R C Levett

I am a retired ATF agent. I have been in RI for 25 years, worked out of the Providence Field Office for 18 years. Law abiding firearm owners are not your problem. Repeat offenders and their lack of stiff sentences are the main problem. Violent criminals in RI convicted of firearms violations and crimes are back out on the street in no time committing the same crimes. They don't care about your no gun zones, AWB, Large capacity magazine bans, etc. They just don't. You will never stop a mass shooting...the people that commit these crimes are not mentally stable and they don't care about your laws...Flash suppressors, pistol grips, barrel shrouds, threaded barrels....those are feel good laws that don't have anything to do with crime or how the firearm actually fires.....You worry about glock switches...they are already illegal, suppressors are illegal in ri so who cares if a barrel is threaded? You can have a barrel threaded at any time.....firearms can be reconfigured to operate as fully automatic at any time...but its already illegal. Your bills to ban firearms with no grandfather clause only hurts law abiding citizens who are responsible. Criminals will not turn anything in or sell them. You are forcing some citizens who invested a significant amount of money into firearms...some are collectible and the

value goes up each year in their investment. Come on now.....get off these silly firearms laws and go after criminals.

Thank you, Jamie Schiffer
