Dear Members of the Judiciary Committee,

I strongly urge you to oppose House Bill H8073.

This legislation compels law-abiding Rhode Islanders to surrender legally acquired private property under threat of criminal penalties. That is not a reasonable regulation—it is a direct infringement on fundamental constitutional rights.

Criminals, by definition, do not follow the law. Measures like this do not disarm those intent on violence; they burden responsible citizens who have complied with every legal requirement. Punishing lawful ownership while failing to address repeat offenders and enforcement gaps is not sound public policy.

States that have expanded lawful carry have not experienced the widespread harm often predicted, and in many cases have seen stable or improved public safety outcomes. Rhode Island should be focused on targeting violent offenders, strengthening enforcement, and addressing systemic failures—not restricting the rights of those who follow the law.

I expect you to defend the constitutional rights of your constituents and reject House Bill H8073.

Your vote on this matter will not go unnoticed.

Dear Members of the Judiciary Committee,

I strongly urge you to oppose House Bill H8073 and defend the rights of law-abiding Rhode Islanders.

As a populous nation we have seen a great reduction in civil liberties. Roe V. Wade being overturned, our 4th amendment rights being encroached upon by federal immigration enforcement, the ever shrinking right to privacy, further entanglement of religion with our political process are all already drastic and over bearing infringements of our rights as Americans.

The topic of the Second Amendment being a partisan issue is not true, it is clear neither party understands the majority and is tone-deaf to the issues at hand. We all want to live in a safe and harmonious society and avenues to accomplish this should be explored. This however is not an avenue to this goal. Guns do not kill people systematic inequality does.

My fear is this legislation will be used to prosecute at risk and marginalized communities very much like the war on drugs has. With established rights being infringed upon across the country make the right and legal choice to reject this legislation.

This legislation would force Rhode Islanders to surrender justly acquired private property under threat of criminal penalties. That is an unacceptable infringement on fundamental rights.
