As a Rhode Island School of Design student, witnessing an ICE kidnapping on April, 9, 2025 showed how deeply this bill is needed. ICE has been stalking and following people looking for citizenship from the courts and it isn't safe for them, or the Rhode Island community at large. I urge you to pass this bill so people can safely attend their court hearings with dignity. If this step isn't taken, the normalization of illegal and wildly unpopular kidnappings under ICE will continue and will harm your constituents in the long run.
