Chair Hagan McEntee and Members of the House Judiciary Committee,

As a Rhode Island resident, I support the Lila Manfield Sapinsley Compassionate Care Act (H7760).

[Add your testimony here]

Family and friends are so much a part of our lives.

When someone becomes sick with a lingering, painful illness and life expectancy 6 months or less,

it is devastating for everyone especially the patient but often not that they are dying but how long will it take and disrupt loved ones life.

I have been a caregiver often and it was painful for all now I am terminally sick, I have cancer. I do not want my family and friends suffering watching me.

I know God will know when it is time for me and I will accept it.

Passing this compassionate act will allow me and many other Rhode Islanders to live right now feeling less anxious and at peace!

I am feeling well but am always worried about the near future and what my sickness will cause my loved ones.

I have many sleepless nights in fear!

Please consider my plea and pass this act for your family and friends.

Sincerely,

Donna
