Chair Hagan McEntee and Members of the House Judiciary Committee,

As a Rhode Island resident, I support the Lila Manfield Sapinsley Compassionate Care Act (H7760).

I feel if someone is terminally ill that they should have the right to end their life if they no longer wish to suffer & deteriorate. We euthanize animals that are sick so why should humans not have that right as well? I'm also hoping the day will come that this bill will also be dementia patients. I believe you should be able to make your wishes known when you are of sound mind. I saw my mother suffer with dementia & I know she would never have wanted to live that way. I don't want to live that way either, if the time comes.

Please vote for this bill.

Thank you
