Dear Chairperson Representative McEntee, and member of the House Judiciary Committee:

I just heard this is getting considered today - please take this opportunity to bring our state up from its' embarrassing punitive and harsh probation system. And low ranking compared to other states. People are suffering unnecessarily, those who are already have the odds of a comfortable life stacked against them. And taxpayers are footing the bill for these unfair and inherently racist systems, to the tune of \$24 million annually, per one estimate! When our state is going under financially from so many other problems, we all really need you to do the right thing and straighten the situation out, after all these years of people working hard. Be heroes and move it along!

Thank you for your time, attention, and service to our state's people.
