the passing of this bill is imperative for those individuals who are critically ill with limited life expectancy. I think back to my mother's end of life and wish that she had had the opportunity to end it sooner vs later. She suffered in pain for longer than would have been should a death with dignity option have been available to her. She kept begging for God to take her. Just isn't right.

I have also had two friends who died of ALS and saw them suffer far too long.

This isn't for everyone, but should be an option for those who don't want to suffer longer than necessary if death is imminent.

Pleas bite to pass this bill.
