Please pass this bill HB2502 presented by Rep. Cotter. It is time for our state and country start standing up for the victims. Since there is not a law on the books already is ridiculous.

This bill is more important than the passage of having schools reporting on their trash policy and having a state verification of the schools trash policy.

Do what is right for the victims. Our shortage of housing is not a reason for not passing this bill. The person who committed the crime can figure out where they live on their own.
