Re: Opposition to H 5507

Chairman Corvese and Members of the House Labor Committee,

As a restaurant owner of The Parkside Rotisserie & Bar, located in Providence, I write to express my opposition to H 5507, which would eliminate the tipped minimum wage.

There is a reason people choose tipped restaurant jobs – they know the economics are in their favor. Tipped workers take these jobs for the earning potential.

The median full-service restaurant tipped worker makes nearly \$29.00/hour in Rhode Island. In my restaurant, that number can go as high as \$40-\$50 per hour during peak service times.

If this bill passes, it will drastically increase labor costs, forcing me to either raise menu prices significantly, implement service fees, or reduce staff hours. This will not only impact my employees' take-home pay due to lower tipping levels but also discourage customers from dining out as frequently, further hurting the industry.

No tipped worker ever makes less than the prevailing minimum wage for any hour they work. Historically, when tip credit has been eliminated, the level of consumer tipping has dropped because of menu price increases or imposition of house service fees. You may think by eliminating the tip credit you will be helping employees, but it will drastically change their earnings. The elimination of the tip credit will drastically change one of the fundamental business models in the industry, forcing me to quickly make changes to how we operate and force us to find ways to bear the cost of \$11.11 more per hour for each tipped employee. This does not include the additional payroll costs such as workers' compensation and other costs that are directly related to payroll. The elimination of tip credit could be a catastrophe for our industry. I respectfully ask that you oppose H 5507. Thank you for your consideration.
