

April 9, 2025

The Honorable Arthur J. Corvese, Chair
House Labor Committee
Rhode Island House of Representatives
82 Smith Street
Providence, RI 02903

SUBJECT: Support for House Bill 6066

Dear Chair Corvese and Members of the Committee:

The American Heart Association would like to voice support for House Bill 6066, AN ACT RELATING TO LABOR AND LABOR RELATIONS -- TEMPORARY DISABILITY INSURANCE -- GENERAL PROVISIONS, by Representative Giraldo, and we thank the committee for the opportunity to submit testimony. This important legislation would enhance benefits under Rhode Island's Temporary Caregiver Insurance (TCI) Program and Temporary Disability Insurance (TDI) Program.

The American Heart Association is the nation's oldest and largest voluntary organization dedicated to fighting heart disease and stroke. Heart disease is the No. 1 killer worldwide, and stroke ranks second globally. Even when those conditions don't result in death, they cause disability and diminish quality of life. We want to see a world free of cardiovascular diseases and stroke. Our mission is to be a relentless force for a world of longer, healthier lives.

House Bill 6066 would increase the wage replacement rate for both the TCI and TDI programs, enable self-employed workers to buy into the programs, and update the definition of family to include siblings, grandchildren, and care recipients in the coverage for TCI benefits to encompass the diversity of modern families.

The proposed improvements to the TCI and TDI programs are vital for Rhode Islanders. Paid leave is important for heart attack survivors in recovery.ⁱ Nursing parents who have access to paid leave are more likely to breastfeed, which has been shown to improve the heart health of the parent and baby.ⁱⁱ Women who take paid leave after the birth of a child are more likely to reenter the workforce within a year of the child's birth.ⁱⁱⁱ In addition, workers who can take paid time off work to care for themselves or a family member may be more productive.^{iv}

Please support House Bill 6066 to ensure Rhode Island employees and self-employed workers have access to TCI and TDI benefits that provide sufficient paid time off with adequate wage replacement to manage a serious personal health condition, care for a family member with a serious health condition, or bond with a new child after birth, adoption, or placement in foster care.

Thank you for your consideration.

Sincerely,

Megan Tucker
