**Subject:** Support of HB7092

Members of the House Committee on Municipal and Govt Housing,

I am writing in support of HB7092, which will reduce the WSA charged interest rate from 1.25% to a maximum rate of .5%. Warwick residents should be offered the lowest interest rates possible on infrastructure related projects and not further burdened by them.

We should not allow the WSA to make an excessive profit off of loans that homeowners will be required to take. These payments are already going to unaffordable for many residents, even with the \$1000 "discount" for financial aid, and a 1% interest rate decrease will immensely help those are already financially struggling - sparing families from having to make unthinkable financial decisions in the midst of an ongoing global pandemic.

Please support HB7092 and ensure residents are able to keep payments affordable as the municipal sewer projects move forward. Thank you.

Respectfully,

Matthew Offiler
