

This bill will reduce the current limits on renting in cities and towns across the state and will have a positive effect on the housing crisis in Rhode Island. It will also provide badly needed housing for URI students. Because of the recent housing ordinance I now cannot afford to rent a house off campus for the next two years and I have to commute from home everyday for the remaining years of college. I am missing out on such an incredible life because of an ordinance that concludes to unaffordable rental rates. I also have roommates that only want to live with me for their mental health and they are already freaking out that I am not gonna be able to live here for the rest of college years. This state has been such a disappointment and it never fails to keep disappointing.
