

Good afternoon,

I strongly support bill H7382. This bill reduces the current limits on renting and provides badly needed housing for URI students as has been done for decades. My son is a sophomore at URI and will need housing for Fall 2024. URI doesn't provide enough housing for all students and so they need to move off campus. The town's ordinance is negatively impacting us as we will have a hard time finding him a rental with these strict rules in place. The monthly rental with 3 students to a house will not be affordable and will cause students to be without housing. Please consider the URI students and pass bill H7382.

Sincerely,
