

Hello,

My name is Jacob Gelinas and I have been a housing provider for 5 years now. I purchased a multi family property because it was the only way I could afford a home. Now housing is even more expensive and bills like this will only take away the American dream from more individuals in our lovely state.

I oppose house bill 7989 as these housing authorities will only cost more taxpayer dollars which will drive up housing prices for everyone. This will hurt the very people the bill is intended to help.

Thank you very much,
Jacob Gelinas
