

Dear Committee clerk Huntley,

I am a landlord with one two-family home, and although my property is not in Providence, I am opposed to this bill. If this were to pass in Providence, many other cities could follow suit. Rent control would hinder my ability to maintain my property. The costs to maintain and repair a home have increased many times over and continue to do so. If I were not able to increase my rents this could put me in financial distress. Secondly, my property is my property and to take away my rights to do with it as I see fit is simply wrong. I should be able to remove a tenant if I deem it necessary, for any number of reasons, without fear of fines or exorbitant monetary losses. Please vote against the s bill.
Thank you.

This bill aims to implement rent control, require just cause evictions, and mandate landlord-tenant relations in cases of housing violations, could have adverse effects on both landlords and tenants, potentially leading to unintended consequences for our community.

Rent Control Concerns:

Rent control often results in reduced investment in housing, deterioration of rental properties, and decreased availability of affordable housing in the long term.

Just Cause Evictions:

Requiring just cause evictions could impede landlords' ability to efficiently manage properties and address problematic tenancies, which in turn creates chaotic or even dangerous living arrangement for upstanding, neighboring, tenants.

Mandated Landlord-Tenant Relations for Housing Violations:

Mandating relations in cases of housing violations may burden landlords with additional bureaucratic requirements and legal liabilities, discouraging property ownership and investment in rental housing.

Instead of blanket measures like rent control and mandatory just cause evictions, we suggest exploring alternative approaches that promote housing affordability and tenant protections without stifling housing market dynamics or infringing on property rights. Solutions such as streamlining permitting processes, providing financial incentives for affordable housing development, and enhancing tenant education and support services could offer more effective outcomes.

Please consider referring to tried and true resources such as this one for the negative impacts of policies such as rent control:
