Subject: RI H5704

Good Morning Representatives,

I am writing to you regarding bill RI H5704, being heard later this afternoon. I am unable to attend the hearing, however, I wanted to add my voice to others that are advocating for the banning of SGAR use in our state. I am a wildlife transport volunteer and nature appreciator and have seen the effects of these pesticides being used at our homes and businesses for rodent control, with very detrimental, but probably unintended effects to our wildlife, soil, and water, among other things. It is also dangerous for our pets and children.

There are other alternatives.

Please help our beautiful wildlife and biodiversity.

Thank you very much,

June DePasquale
