Hello,
My name is Shelly Capaldi. I am in favor of banning rodenticide. I am a volunteer with Wildlife Rehabilitators Association of RI.
I am on the transport team. It is heart wrenching and totally unacceptable to see the suffering a raptor or any animal goes through after ingesting rodenticide.
It is torture!
Imagine the numbers of wildlife that weren't fortunate enough to be discovered suffering where humans called the clinic to try to help them.
I am in favor of Banning Rodenticides.
Thank you,
Shelly Capaldi
