You don't often get email from rustychilton@gmail.com. [Learn why this is important](#)

Sir or Ma'am:

Besides the pollution. Noise and Air.

Gas powered leaf blowers are used as a revenue generating source. This 60 yr old disabled Army veteran. can move wet /Frozen leaves with a rake quicker then a leaf blower. Leaf blowers are used to just move debris around.... never picking it up...

Grass clipping don't need to be blown by a Gas powered leaf blower.

The Industry is LOW integrity... God does not need help with wind. In Newport they are used to blow water across lawns when it is raining. 4 hours employee walking around a pool deck??? illegal dust clouds. etc..... Clock milking..... extra revenue generating source...

thank you,

Mary Sorbanelli
