Hello,

I am a resident of the East Side and I am writing in strong opposition to H7150 about noise from leaf blowers. The noise caused by leaf blowers is extremely stressful and aggregating. Some days I can hear it for no joke 10 hours a day. 10 hours! This is not that uncommon in the fall!

There is an obvious alternative to gas leaf blowers that is much quieter -- electric leaf blowers. Noise is unhealthy and causes stress and needs to be treated like another source of pollution. Please oppose this bill. I do not want gas leaf blowers to be used in my neighborhood.
