Hello,

I am writing in support of House Bill 7222, in regards to banning Anti-coagulant Rodenticide in our state. Decades of data has shown that pesticide use does more harm to avian wildlife, and the greater health of the environment than the good they purport to do. The wellbeing of the Avian biosphere especially is at risk to these chemicals, in a pattern that hardens back to Rachel Carson's Silent Spring. I ask that you do not continue the same environmental damage that inevitably continues through purposefully ignoring the warnings of experts. Be the change you told yourself you would be.

Thank you,

Katarina Ezikovich
