

From: Kim B. Falcone in support of RI H7222
Rodenticide Ban and Municipal Pilot Program

Dear Representative Stephan Casey and
Members of the House Committee on
Municipal Government and Housing

Restricting anti-coagulant rodenticides and
providing municipalities with the opportunity
to deploy a science-based, multifaceted
approach to pest control will have benefits
that span much wider than just our raptors.
Other bird species, mammals, even our own
pet cats and dogs, can directly or indirectly
ingest these poisons.

Prohibiting the sale and use of these
rodenticides is a step in the right direction to
protect our wildlife and ecosystem balances.

Please support RI H7222.

Sincerely,

Kim B. Falcone

South Kingstown, RI 02879
