

Chair Stephen Casey
House Municipal Government and Housing Committee
RI State House
Providence, RI 02903

Dear Chair Casey and members of the House Municipal Government and Housing Committee,

My name is Paige Therien, a resident of Providence, writing to urge your support for bill H7222. This is important legislation that addresses the poisoning of birds and other wildlife by toxic anticoagulant rodenticides.

These poisons are used as the top way to “control” rodent populations. However, we still have rodent issues in all of our towns and cities – meanwhile, these pesticides are poisoning our wildlife. These chemicals are doing more harm than good.

Wildlife are facing so many threats today, and the passage of this bill would be an easy way to address one of these threats.

Thank you for your consideration.

Paige Therien
Providence, RI
