To Whom It May Concern:

I was born in Warwick, RI in 1981. I own a home in Middletown, and I strongly oppose this bill. My family and I have enjoyed spending every summer there since 2012, affording it solely thanks to off-season rentals. In addition to guests of our home helping local businesses thrive and contributing meaningfully to the local tax base, we have built trust, friendships and lifelong memories with our neighbors.

Ask Kathy Hochul and Gavin Newsom what happens when you punish the people paying the highest share of your state taxes and watch as we take our money to other states.
