

My name is Toby Bennett. My mother is currently living on the streets of pawtucket and central falls, roaming and looking for a place to stay. Due to legal reasons she is no longer allowed in our residence but we still hear about her well being from our step-father. She has been on the streets for a little over three years and in those three years she has sent home over a hundred letters; each depicting the acts of dumpster diving, begging for food, and sleeping under trucks or in dumpsters. I don't see or hear her anymore, but the last time I did she was sleeping behind an abandoned building. Struggling to breathe. We must acknowledge this problem before the rest of the homeless start to struggle, and eventually stop breathing.
Thank you.
