I am writing to you as an individual business owner, not as a member of any other organizations.

There are subsections of bill 7493 that I am opposed to and believe would be detrimental to a balanced competitive business community.

There are many sections of the bill that I believe would be very helpful to not only the brewing community but also the retail and wholesale tiers.

I encourage the committee to review each section of the proposed bill individually.

Respectfully,

Tamara McKenney
