Ferreira's Package Store 1965 East Main Rd., Portsmouth, RI: H7664- Members of the Committee, I also would like to state that we are strongly against Bill H7664

This bill seriously hurt all retailers that currently deal with outside Kittery companies. Strongly against this bill. This bill is being pushed forward by senators and house representatives that are very friendly with the largest caterers in the state. The only benefit would be to that of the catering company ownership. These catering companies, if given lower prices will not lower the prices to the end, consumer they will only have more of a profit margin. And it will take away from the retailers, ability to give lower pricing to consumers based on both buying from the wholesalers. This bill will traumatically hurt consumers in the state.
