Subject: Re: Bill H5255

Hello,

I am writing you to express my support FOR bill H5255. We need to support business in Rhode Island. Many other states have the most amazingly diverse and competitive brewery landscape that makes it an interesting and wonderful place to visit! Just for that purpose. I.E. Vermont. Let business bloom. Let business SELL their products.

Crack down on drunk driving and irresponsible behaviors. NOT on a thriving business opportunity. The art of brewing, similar to wine country, is a powerful draw and enriching similarly to the art community in Providence.

I hope you hear your constituents! LET RHODE ISLAND OPEN for businesses. Plus we need this business to thrive and to pay our taxes on the sales. How else are we going to give all our money away with all these stimulus checks!

Melanie

Hello.

My name is Juan (Tony) Mendoza. I'm writing to you about me being FOR bill H5255 that is for allowing breweries to increase their sell of beer.

I am not sure why we would restrict a brewery from selling more beer. Restricting or preventing a business from selling their product is not American and it does not allow for a company to grow. This is also hindering our small businesses to compete with neighboring states. This is Rhode Island, it's 30-45 minutes from the middle to any other state. So competition is important. We need to keep up.

Please vote FOR H5255.

Thank you.

Respectfully,
Tony Mendoza
