Subject: H5255: in Support of

Hello,

I, Tucker Carlmark, of 26 Greenview Street, Cumberland, support bill H5255.

This bill increases the amount of beer RI breweries can sell direct to a consumer for off premise consumption. Currently, RI breweries are at a disadvantage to other New England states that already allow higher case limits, and this will also assist in keeping our small breweries open.

Thanks for your consideration.

Regards,
